InterGlobe Technologies and Technetronic Solutions, Inc. Align to Deliver Customers a Full Spectrum of High Performance IT Services

DENVER, CO, October 28, 2008 - InterGlobe Technologies (IGT) and Technetronic Solutions, Inc. (TSI) today announced a joint marketing agreement to promote IGT's Information Technology and Business Process Outsourcing (BPO) services and TSI's IT Strategy, Architecture and Legacy Modernization services.

IGT, a leader in delivering cost-effective IT and BPO services to corporations worldwide; and TSI, an innovator and enabler of enterprise-wide IT Strategy, Architecture and Legacy Modernization services, plan to leverage each other's complimentary capabilities to offer a complete life-cycle of services ranging from IT strategy and architecture planning through tactical execution and delivery.

"The combination of IGT and TSI's complementary service capabilities deepens the range of service offerings and delivery capabilities for both companies," said Steve Smith, Chief Marketing Officer of IGT. "By aligning TSI's highly recognized IT strategy services with IGT's high performance execution and delivery capabilities, we can move into a new realm of service offerings while continuing to deliver significant results to our existing and new customers"

"We are excited about this venture with IGT, which significantly enhances both of our company's ability to deliver the end-to-end services our customers expect," said Donald E. Lutz, Founder and CTO of TSI. "We will furthermore be working strategically to jointly align our sales, support and service capabilities to enable our customers a new seamless experience and further enhance the value of services we deliver to our customers."
